The Moto of MOU:

In today's scenario students learn the things without understanding the practical and basic aspects of the concepts, in a result this type of learning cannot help them to survive in this competitive world. Hence, the need of capacity building and skill development is necessary, especially in rural area where youth is facing the unemployment problem. The main problem we want to solve this by providing our training programme is to provide stability in career both economically and education point for youth. Hence, on ground of quality education we share same thoughts for solving this issue. we are requested to proceed the signing of this MOU. As an educational institute NIRWAN and IIAASD together can make a great bridge which cover all loop holes of skill education, especially in agriculture stream.
